

My name is Najla Vargas, and I enjoy meeting new people and finding ways to help them in Science and Biology. People find me to be upbeat, self-motivated with excellent communication skills. I am a dedicated person who is now a sophomore at the University of Tulsa double majoring in Psychology and Pre Medicine and double minoring in Neuroscience and German. I enjoy reading, and the knowledge and perspective that my reading gives me has strengthened my teaching skills and presentation skills. My passion for medicine, more specifically Neurosurgery, is what drives me to be the best I can possibly be and I aspire one day to be the next female Neurosurgeon.
